

Mirrored Tea Light Stand

Use **tea light candles only**. Be careful when burning the candles and just after they have been extinguished. Glass and/or metal parts can absorb and retain heat quickly and become very hot to the touch.

Instructions: Place tea light candles into the wells provided in the base. Slip the mirrors into the slots provided in the base and light the candles. An optical illusion is created by the mirrors for an effect that's truly dazzling.

Wax Candle Safety Warning

- Never leave a burning candle unattended.
- Remove all packaging before use.
- Place candle in an upright position on a non-flammable holder or surface.
- Use a non-flammable plate or saucer to protect surfaces from dripping wax.
- Burn candle no longer than 1 hour per diameter size of the candle. For example, burn a 2-inch-diameter pillar candle no more than 2 hours at a time.
- Trim wick to 1/4-inch (1 cm) before lighting and before relighting.
- Burn out of reach of children and pets.
- Keep candle away from other flammable materials and away from draughts.
- Do not move candle while burning or when wax is still liquid.
- Store in a cool dry place when not in use.
