

## Corn Cob Feeder

Chickadees, nuthatches, finches, woodpeckers and other “clinging” birds will love snacking at this cleverly disguised feeder. Just unscrew the steel mesh cobs and fill them up with sunflower seeds, shelled peanuts or a chunky seed mix.

### Filling and Mounting

Each cob basket twists off for filling and holds approximately 1-3/4 cups of seed, for a total of about 5 cups of seed. Fill each cob with seed, replace the cob, then hang the feeder on a fence, gate or shed using the built-in loop. You will need to provide a nail, hook or screw for hanging.
