

Reforest Teak Trellis

Strength, durability and natural weather resistance have made teak the wood of choice for generations of builders and craftsmen. Our friends at Reforest Teak make these trellises to our specifications from durable, sustainably harvested teak with high-quality construction details. The Trellis is designed to fit the Reforest Teak Self-Watering Trough Planter.

Trellis Assembly

Parts List:

Trellis Verticals (3)
Trellis Horizontals (8)
Teak Hammer (1)
; Trellis Brace is included with the Planter (1)

Step 1. Place all Trellis parts on a clean, level surface. (Figure 1).

Step 2. Follow the Trough Planter instructions to join the Planter sides and insert the Water Reservoir. Place the Trellis Brace into the Planter as shown (Figure 2).

Brace

Step 3. On a flat hard surface, join the Trellis Verticals and Horizontals. Use the Teak Hammer provided to tap the Horizontal dowels into the pre-drilled holes in the Verticals.

Step 4. Lift and direct the middle Trellis Vertical into the slot in the Trellis Brace. Make sure the Trellis stands securely inside the Planter.

The Trellis assembly is finished. You may now follow the Trough Planter instructions for planting.
