

Mezzaluna and Chopping Bowl

With stainless steel blades and a contoured bowl made of durable, eco-friendly bamboo, this double-handled Mezzaluna will chop onions, herbs, celery or nuts. The double handles make it easier on your wrists while cutting and the Bamboo Chopping bowl is much more durable than maple.

Care Instructions: Handwash the Bamboo Bowl with a mild detergent and water. Rinse well. Do not fully immerse the Board in standing water. Periodically apply a food grade mineral oil to the entire surface of the Bamboo Bowl and wipe off any excess oil. The Mezzaluna Chopper can be handwashed or cleaned in a dishwasher.
