

Lollipop Tree

Decorated with your favorite lollipops, this wooden tree makes a kid-friendly centerpiece and a fun way to count down to the holidays. Holds 30 standard lollipops (not included) and folds down for easy storage.

Directions

Step 1. The Lollipop Tree arrives folded. Remove the attached Base piece from the bottom of the Center Post and combine it with the other Base piece shown below. Attach the combined Base pieces to the Center Post and stand the Tree upright.

Step 2. Slide the Star piece on the top of the Center Post.

Step 3. Unfold the wooden Branches, alternating their direction on all sides to create a balanced effect. Then, insert a lollipop into each Branch hole.
