# 5 Easy Ways to Store the Harvest

By Kathy LaLiberte

With the surge of interest in vegetable gardening has come a corresponding surge of interest in preserving the harvest. But most of today's vegetable gardeners don't have a root cellar and don't have the experience or time for canning. No worries! There are still many simple ways to put away some of your garden's fresh and healthy bounty so you can enjoy it later this fall and winter.

## Fall is Peony Planting Time

[Singing in the Rain Peony](#)

Peonies are one of the best-known and most dearly loved perennials. This is hardly surprising considering their sumptuous beauty and fragrance, trouble-free nature and longevity. If a peony is well-situated and happy, it may bloom for 100 years or more with little or no attention. Mail-order suppliers offer a wide range of plump, bareroot plants, ready for shipping throughout the fall, which is the ideal planting season for peonies.

## Garlic: Get Ready for Fall Planting

Garlic is a unique crop in that it gets planted in late fall and is harvested the following July or early August. Determining when garlic is ready to harvest is one of the trickiest parts about growing it. I recently harvested a bumper crop and took some pictures to walk you through the process.
