

Plant Ladder

If you love houseplants, your windowsill space is probably at a premium. With this ingenious, free-standing plant ladder you'll have room to spare! No mounting is necessary. Just lean it against the wall in front of a window and arrange your plants on the two adjustable shelves; their weight holds the ladder securely in place. You can add up to four more shelves (available separately), and for extra light you can attach a T-5 fluorescent fixture to the underside of a shelf. The shelves hold up to 50 lbs. each. The only tool you'll need is a Phillips screwdriver.

Assembly

Lay out all parts on a clean level surface. Position the ladder arms with the predrilled bolt holes facing inward.

Determine the height at which you would like to place

the shelves on the ladder, then attach each shelf to the arms using the Phillips bolts provided.

Caution: Do not exceed the weight capacity of 50 lbs. for each shelf.

Ordering Information

#37-076	Plant Ladder
#37-077	Extra Shelf
#36-503	T-5 Light Fixture
