

Looking for a perfect match this Valentine's Day?

Look no further than Intempo's MP3 speaker-dock & Apple's new pink nano

It's gorgeous, metallic pink and available now; Intempo's best selling iDS-01NRX MP3 speaker-dock is the perfect partner for the new pink iPod nano. It's a winning combination and the ideal present with Valentine's Day just around the corner. The iDS-01NRX is available immediately from Amazon.co.uk or www.intempodigital.com for £39.99.

The iDS-01NRX is one of Intempo's market leading speaker-docks. With its powerful 12watt speakers it is perfect for adding hi-fi quality sound to any room in the home. The ease of use is unbeatable too with its touch volume controls or the credit card-size remote.

"Intempo has always been hot on the heels of the latest tech-trends and we are the only manufacturer on the market to have a speaker-dock to match Apple's newest addition to the nano family." Said Katie Richards, Marketing Manager at Intempo

"Unwrapping the new pink nano on Valentine's Day will be an instant hit, but what better romantic gesture than combining it with a matching speaker-dock so you can share your favourite music together?" Richards added.

Tech Spec: The iDS-01NRX is mains powered and is a compact 23cm long, 12cm high and 9cm deep. The built-in dock will simultaneously synchronise and charge your iPod while you listen to music or view favourites. There is a 3.5mm stereo line-in jack which lets you connect to other audio devices and the USB port lets you download from a PC or Mac, ensuring your music collection is constantly updated.

About Intempo

Intempo is a music brand which designs, develops and markets award winning DAB digital radios, iPod docking stations and speaker systems, Internet Radio and Bluetooth audio accessories. The innovative range of products is designed to enhance your lifestyle and complement your living and working spaces.

Intempo has an array of DAB digital radios, from the classic PG to the multi-award winning retro-styled KT range. The TRS is Intempo's latest DAB, a small lightweight budget portable in five different colours making it an ideal second DAB radio for the home.

The i-series is Intempo's innovative range of MP3 docking stations and speaker systems. From the best-selling iDS-01 and its 'big brother' the compact and impressive sounding iDS-05 to the mid-range iDS-02 and iDS-03 to the iFi, an impressive tower system, marketed as the hi-fi replacement for the iPod generation.

In summer 2007 Intempo unveiled its first range of Bluetooth™ accessories and also launched its first Internet Radio & Music Player, the GX01.

Intempo has recently converged its core strengths in DAB and docks, launching the RDI in 2007, the industry's first hi-end speaker-dock with loaded DAB radio. In 2008, Intempo will launch the innovative iDAB. The iDAB is unique because it plugs into the base of your iPod letting you listen to DAB radio or sit it in your iPod speaker-dock and it will convert it instantly into a DAB radio.
