

Supplies:

1 2 yd. in each of 2 contrasting fabrics [we used home decorating fabric in a floral print (A) and gingham (B)]
3 yds. coordinating bias tape
Scissors
Sewing machine
Matching thread

Measuring tape
Straight pins
Photocopier
Iron

Cutting:

Measure chair- back width.
Centering design of printed fabric, cut 1 square A and 2 squares B to chair- back measurement. Using photocopier, enlarge pocket pattern so bottom edge is equal to half of fabric square measurement.
Fold square A in half vertically and place pattern on fold, aligning bottom edges of pattern and fabric; pin in place. Cut out pattern.

Assembling:

Pin B squares, wrong sides together; topstitch on all 4 sides, 1/4" in from outside edge.
Cut length of bias tape to fit along (top) edge of square B, adding 20". Fold length of bias tape in half and match this point to center of top edge of square B; enclose top edge of square B in bias tape, allowing ends to extend at each side for ties; pin tape in place. Starting at end of 1 tie, topstitch edges of bias tape together, stitching approx 1/8" in from edge of tape; continuing, stitch through all thicknesses across top of square; stitch edges of remaining bias tape together.
Open square A, enclose and pin bias tape to top (shaped) edge; topstitch bias tape in place.
Pin pocket piece, right side out, to square B, aligning bottom edges. Topstitch a vertical line from center bottom of piece to top of center point of pocket piece to form 2 pockets as pictured.
Cut bias tape to fit along bottom and sides of square B, adding 20". Fold length of bias tape in half and match this point to center of bottom edge of square B; enclose top and side edges of square B in bias tape, allowing ends to extend at each top corner for ties; pin tape in place.
Topstitch ties, sides and bottom same as for top edge of square B; press.

Skill Level: Some experience helpful

Due to seasonal nature of project, supplies are available for a limited time only. Please read all instructions prior to beginning; read and follow all manufacturers' instructions for all tools and materials used. Provide adult supervision if children participate in this and all craft projects.
